EDUCATION

The University of Manchester, UK – Bsc Computer Science

SEPTEMBER 2020 - JULY 2023 (EXPECTED)

- First year modules: Python & Java Programming, Verilog Engineering, ARM Programming, Web Development, Operating Systems, Data Science, and Computation
- First year grade: XX%

The British School of Brussels, Belgium – A-Levels

SEPTEMBER 2018 - JULY 2020

- A-Level grades: A*A*AA in Maths, Further Maths, Physics and EPQ respectively

WORK EXPERIENCE

A.G. Trading, Belgium

DECEMBER 2019 - JULY 2020

Part Time IT and Software Support

- Facilitated support and troubleshooting for accounting software and system installations
- Developed leadership skills by helping less technically experienced employees use industry specific programs more efficiently

Private Tuition

SEPTEMBER 2018 - JULY 2020

- Tutored students of varying ages in STEM subjects, mainly mathematics, computer science, and physics
- Improved teaching skills, increased patience & empathy, and refined the ability to explain complex technical concepts in simple terms

PROJECTS

Recipe Finder Website: Recipedia

- A web application to recommend tasty and healthy recipes from popular recipe websites, based on user preferences (such as dietary requirements, allergies, BMI, and TDEE)
- Developing the front-end using React, back-end using Express for Node.js, and database using MySQL
- Leading a 7 person team using Git for project management, with 305 commits (over 50% of the total)

Educational Programming Website: Interphase

- A website developed in under 12 hours, aiming to bridge the gap between individuals with no computer science knowledge and online programming tutorials
- Teaches 3 tracks: app, web and game development, explaining how to set up and get started with each

UniCS GameDev Society Website

- The home page for the UniCS GameDev Society, displaying information about the society, members, upcoming events and photos from past events
- Collaborating with a 5 person team, using React for the front-end and Git for project management

Python Tkinter Puzzle Game: The Impossible Game

- Created an interactive puzzle game completely using Python's Tkinter module
- Implemented a leaderboard, load/save functionality, dynamic level regeneration, cheat codes, work mode

TECHNICAL SKILLS

Python, Java, React, JavaScript, Node.js, MySQL, HTML, CSS, ARM Assembly, Verilog, Git, L^AT_EX

AWARDS & CERTIFICATES

Kilburn Scholarship for outstanding A-Level achievements

DECEMBER 2020

CS50X Introduction to Computer Science

NOVEMBER 2020

LANGUAGES

Fluent in English, Dutch, and Hindi. Conversational in French
